CLEVELAND CBX FULL-FACE

FLOP SHOTS MADE EASY

Unleash your short game creativity with the all-new Cleveland CBX Full-Face. Featuring full-face grooves for unprecedented forgiveness and versatility, the Cleveland CBX Full-Face is your new go to wedge for every greenside shot you can imagine. With an extended high toe section that makes flop shots a breeze, and a half-cavity design that offers that pure strike feel, the Cleveland CBX Full-Face delivers full-face forgiveness to your short game.

FULL-FACE FORGIVENESS

We built the Cleveland CBX Full-Face for aggressive players who like to take on risky greenside shots, but benefit from the added forgiveness of the cavity-back design and extended toe portion. Play your next round with increased versatility and without fear of those delicate, finesse shots around the green.

This is the Cleveland CBX Full-Face.

FORGIVENESS

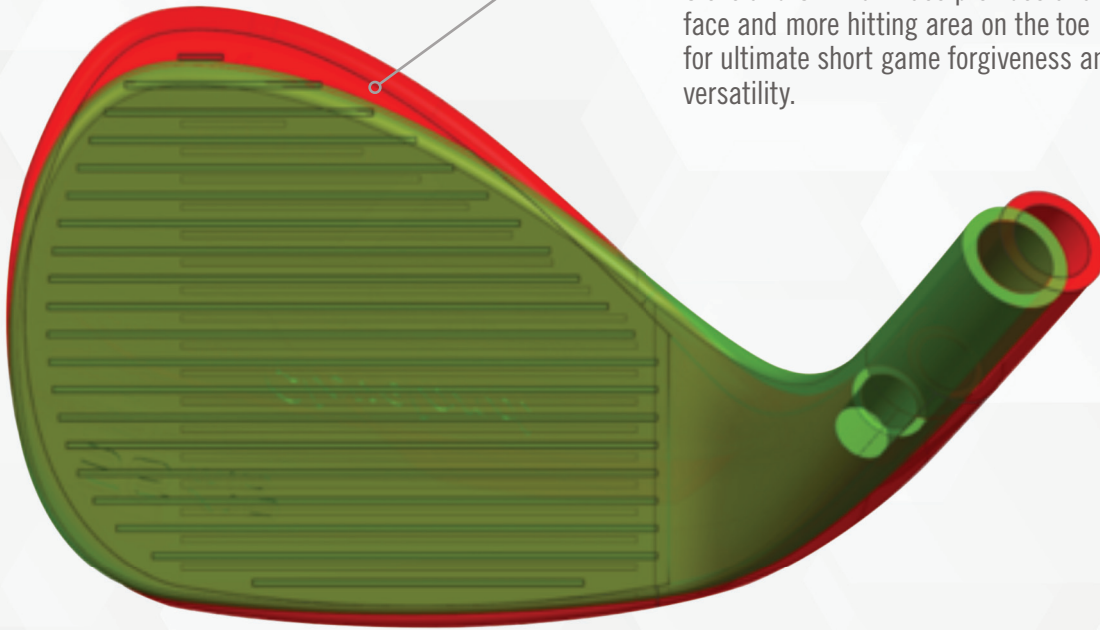

At Cleveland, we don't believe in a one-size-fits-all approach to wedge design. The Cleveland CBX Full-Face offers unmatched short game forgiveness in a wedge designed for a majority of golfers needing added assistance on those tricky short game shots.

HIGH TOE PROFILE

Perfect for sliding under the golf ball, the Cleveland CBX Full-Face features an extended toe portion for a larger hitting area on your most aggressive short game shots.

Compared to traditional wedge designs, the Cleveland CBX Full-Face provides a larger face and more hitting area on the toe for ultimate short game forgiveness and versatility.

VERSATILITY

The key to a consistent short game is the confidence to hit a wide variety of shots. We engineered the Cleveland CBX Full-Face with that specific goal in mind, delivering the forgiveness and versatility that allows you to open the face for that delicate flop shot or square the face when setting your sights on the pin.

C-SHAPED SOLE

Need to hit that delicate flop? What about that go-to, one-hop and stop?

Designed with extra relief on the heel and toe for ultimate short game versatility, the Cleveland CBX Full-Face features a C-Shaped sole grind to suit any greenside situation.

SPIN

The foundation of every short game is spin, and in order to control your golf ball with different trajectories and stop it on a dime, you need wedge shots that carry lots of backspin. Cleveland Golf has always focused on maximizing spin performance, and our 4th Generation Rotex Face Technology delivers. With multiple layers of grooves incorporated into the Cleveland CBX Full-Face, you can be certain that your wedge shots will spin, and spin a lot.

ROTEX FULL-FACE MILLING

With the most advanced face in golf, the Cleveland CBX Full-Face delivers more of what every short game desires: spin.

Extra sharp Tour Zip Grooves cut through the toughest of lies for more spin, especially from the rough. Centered Rotex Milling adds friction to the face, while Laser Milling increases the roughness for unmatched stopping power, right against the regulatory limit.

The Cleveland CBX Full-Face takes Rotex Face Milling to another level by extending across the entire face of the wedge for more spin, regardless of where you strike it.

FEEL

To achieve that crisp, solid feedback every time you hit your wedges, the center of gravity should align where you strike it. With the Cleveland CBX Full-Face, the half-cavity design features a toe-bias center of gravity for improved feel on every short game shot you can conjure up.

HALF-CAVITY DESIGN

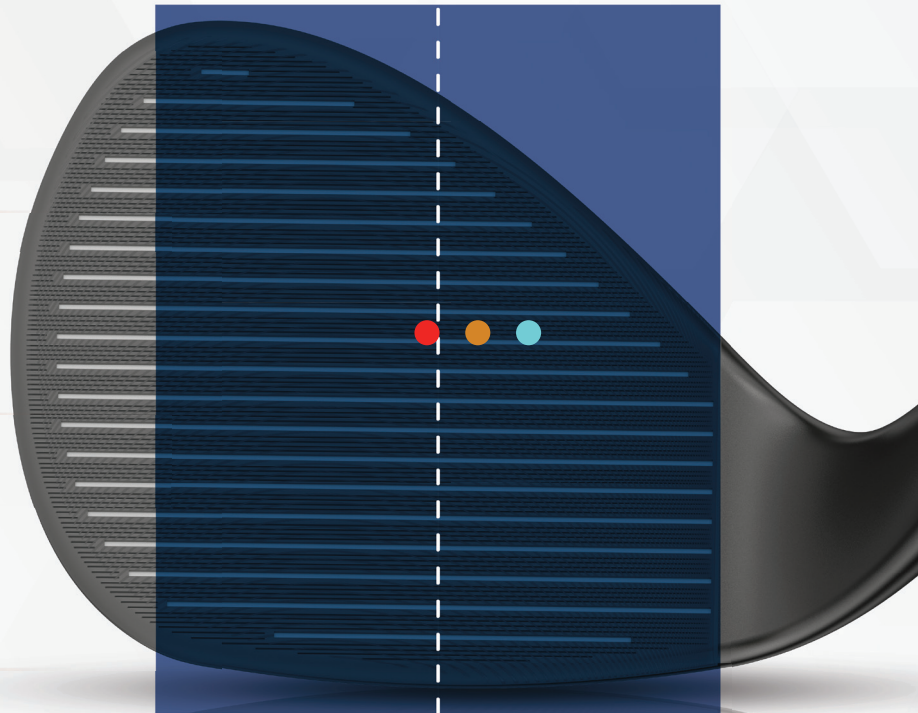

The Cleveland CBX Full-Face features a cavity near the heel and a solid muscle back on the toe portion, which pushes the center of gravity away from the heel and closer in line with your strike pattern.

This half-cavity design improves your consistency and delivers that soft feel you demand when executing those delicate short game shots.

CALLAWAY PM GRIND 60

CLEVELAND CBX
FULL-FACE 60
-0.7 MM

The Cleveland CBX Full-Face delivers a toe-biased center of gravity when compared with other wedges with grooves across the face, allowing the Cleveland CBX Full-Face to align closer to standard strike areas.

CLEVELAND CBX FULL-FACE

CLEVELAND CBX FULL-FACE

The Cleveland CBX Full-Face is a highly versatile yet forgiving wedge, designed specifically for extreme open-face shots around the green. The wide sole and overall blade profile take the fear out of flop shots, making it easier for avid golfers to perform impressive feats of greenside finesse.

KEY INNOVATIONS:

HIGH TOE PROFILE

Hit more extreme open face shots with an extended toe portion, perfect for sliding under the golf ball and striking it on the toe.

ROTEX FULL FACE

Rotex Milling, Laser Milling, and Tour Zip Grooves cover every millimeter of the hitting surface, ensuring maximum versatility with maximum spin.

HALF-CAVITY DESIGN

A cavity near the heel, a solid muscle back on the toe. We've moved the sweet spot right where you're most likely to hit the ball, improving feel and pushing forgiveness levels off the charts.

LOW C-SHAPED SOLE

Optimized for open face shots, Full-Face offers our lowest Cleveland CBX grind to date. It's also C-Shaped for relief on the heel and toe, allowing for unhindered face manipulation.
